WORK EXPERIENCE

Freelance Data Analyst and Researcher, Willis, Tx 01/2022 – Present
Independent analytics, market research, and data visualization - portfolio available at Agitlytics.com

Analytics and BI

- Conduct commodity, energy, and financial-market research using public, industry, and economic datasets.
- Publish recurring crude oil and refined-products market reports through Agitlytics, tracking WTI/Brent prices, crack spreads, inventories, refinery activity, flows, freight, and geopolitical supply risks.
- Build Python, R, SQL, Excel, Power BI, Tableau, and Plotly workflows for data cleaning, analysis, dashboards, and interactive visualizations.
- Developed VIX/SPX volatility-regime analysis with transition matrices, event studies, backtesting, and parameter optimization.
- Created interactive U.S.-China trade analysis using UN Comtrade/WITS, World Bank, and related datasets to evaluate changing trade exposure.
- Work with EIA, JODI, World Bank, UN Comtrade/WITS, and similar data sources for market research, ETL, visualization, and statistical analysis.

Financial Derivatives Trading, Willis, Tx 01/2015 – Present
Futures and Options

Personal Account Trading and Market Research

- Analyze and trade crude oil, interest-rate, volatility, and equity-index futures/options, with 10+ years of personal-account market experience.
- Use directional futures, calendar spreads, options spreads, and research-driven strategy development across futures and volatility markets.
- Apply quantitative VIX/SPX and crude-market research, including event studies, backtests, market-structure analysis, and parameter testing.

All Seasons Pool Solutions, Willis, Tx 01/2023 – Present
Swimming Pool Equipment Service

Owner

- Founded and grew a pool maintenance and equipment service business serving local residential customers.
- Manage QuickBooks accounting and use Excel to analyze operating expenses, material usage, pricing, and job profitability.

CrossFit Willis, Willis, Tx 09/2020 – 08/2022
Local CrossFit Gym

Database Developer

- Developed and implemented a MySQL database into a WordPress website that stored the weightlifting data of over 50 users.

- Performed database tuning and optimization to enhance application performance.
- Troubleshoot and resolved database issues, including performance bottlenecks, replication problems, and data corruption.
- Created and optimized complex SQL queries and stored procedures for efficient data retrieval and manipulation.

United Machining Services, Conroe, Tx
CNC Machine Shop

06/2019 – 08/2020

Programmer/Visual Model Development

- Programmed and operated CNC equipment using industry-standard software (e.g., Mastercam, Siemens NX).
- Collaborated with design engineers to optimize CAD models for efficient machining and assembly.
- Strong knowledge of tooling selection, setup, and maintenance to ensure efficient production.
